**Below are all the answers to your questions.**

## **D Lucky's FAQ:**

**First and foremost we are here for you! Slots is not a group game. It's an individual activity. Anyone at any given point can hit jackpots over and over and over.**

**A lot of people ask why pay someone to push a button? You are not paying someone to push a button. You are paying for a meet and greet to meet D Lucky. (Part of the experience is giving you a free jackpot experience in Las Vegas.**

**Anyone can do a push up...why pay a trainer to tell you to do a push up? It's the experience of when to play slots, when to stop, and when to move to other machines.**

**Disclaimer (Read Carefully): We have never said we know when a slot machine will hit. We have never guaranteed a jackpot. (If a slot machine is random, then that means there's no right way or wrong way to play slots. Simply put in money and push a button....however there are different types of games with different types of rules and pay tables, and different bonuses D Lucky would select on a game. You're coming to experience what all that means to D Lucky.**

**\*\*\* TOP #1 Question:  
Does everyone win at the D Lucky Jackpot  
Experience? \*\*\***

Answer: This is very simple. Not everyone hits a jackpot at the D Lucky Jackpot Experience, that is why there is no guarantee. However, if you don't hit a jackpot with us you are welcome to come back at a later date and try again till you hit a jackpot hand pay. (Jackpot Hand Pays are anything above \$1200.00 in Las Vegas)

**\*\*\* TOP #2 Question:  
WHY DON'T YOU POST YOUR LOSERS \*\*\***

ANSWER: THIS IS VERY SIMPLE TO EXPLAIN. DO WE HAVE LOSERS? ABSOLUTELY. THE ODDS ARE AGAINST YOU PLAYING SLOTS. HOWEVER, WE HIT ANYWHERE FROM 15 – 30 JACKPOTS A DAY. SOMETIMES EVEN MORE. IT'S NOT THAT DIFFICULT TO HIT A JACKPOT. IT'S DIFFICULT TO WALK AWAY. ANY HIGH ROLLER CAN TELL YOU THAT THEY HIT MULTIPLE JACKPOTS IN A SESSION, EVEN IN A DAY. WE HAVE TOO MANY WINNERS. LOOK! WE POST WINNERS EVERY DAY...HOW COME NO ONE ELSE HAS DONE THIS?...IF YOU THINK ABOUT IT, YOU WILL COME TO THE CONCLUSION THAT THE PEOPLE ASKING FOR LOSERS ARE THE ONES LOSING. MISERY ENJOYS COMPANY AND THEY WANT TO SEE PEOPLE IN THE SAME BOAT AND THAT JUST AIN'T GONNA FLOAT!

**\*\*\* TOP #3 Question:  
D Lucky, seriously if you can hit so many jackpots  
why don't you do it yourself and take all the  
winnings? \*\*\***

Answer: I hit 1000s of jackpots a year and I still do. After a while it gets old. My new excitement is seeing others hit jackpots and you can hear it in my voice. Most people that come to Vegas never have hit a jackpot or they don't know where to go or how to play slots. Not every slot machine is equal and that is a FACT. Yes, slot machines are random, but random and equal are 2 different things. We love seeing people win and seeing people happy. That's what drives us to put in 12 hour days 5-6 days a week

**1. Question: Are you banned from casinos?**

1. We are not banned from any major casinos. The 1 casino mentioned the most is MGM and we are not banned from any MGM Properties. The haters are just making us bigger by putting out misinformation. We wish them nothing but happiness and the best in life.

**2. Question: Are you the reason why filming is banned in casinos?**

1. Filming has been banned in a lot of Casinos even before we started the D Lucky Jackpot Experience in Las Vegas. (For example just recently some east coast casinos in the United States have banned filming. We have never yet been to a casino in the east coast.)
2. Again this is misinformation that filming is banned primarily due to us. For example there are Youtube slot streamers banned from Casinos due to filming. If we were the issue the Casinos can just ban us and continue with everyone being allowed to film. The real reason filming isn't allowed in casinos is far bigger than 1 person. The best way to find the answer is asking the casino directly. Hearing it on social media is just more fake news. (The haters are trying to point the finger, but in reality they should really focus on making their lives happier and prosperous.)

**3. Question: Do you accept tips or gratuity when a jackpot is hit?**

1. The only thing you're paying for is a meet and greet, swag bag, and photo op with D Lucky. (All this must be pre booked online at <https://dlucky.me>)
2. This is a good question and often been misinformed. Once we step inside a casino there is no fees. We take absolutely no tips or gratuity when a jackpot is won. You get to keep 100% of the jackpot you hit. (The only tip allowed is tipping the casino floor staff. This is at your own discretion and is not mandatory.)

**4. Question: Do you only play at a certain casino?**

1. We are only allowed to film in certain casinos. We use to film in other casinos playing slots, however with the strict rules about filming, we have decided to just film at Casinos that we have permission. That doesn't stop us from playing at all the casinos up and down the strip. What you see on Tik Tok, Instagram, and Youtube is only a small percentage of the play we do on a daily basis.
2. When you're doing the experience it's not a guarantee you will be filmed even if you hit a jackpot. Most of our jackpots aren't filmed because we will play at casinos that don't allow filming.
3. **SINCE WE ARE NOT ALLOWED TO FILM AT ALL CASINOS BUT WE LOVE TO PLAY SLOTS AT THE BEST CASINOS WE FEEL WE CAN HIT A JACKPOT, WE HAVE DECIDED TO MAKE THE ADD ON FOR PRIVACY FREE EFFECTIVE IMMEDIATELY! EVERYONE THAT HAS PAID FOR THE PRIVACY IN THE PAST CAN NOW GET A FREE JACKPOT EXPERIENCE WITH NO ADDITIONAL CHARGE.**

**Keep me Private (I am a high profile person/No one knows I'm in Vegas/I took a sick day) Please do not film me. ← THIS ADDON IS NOW FREE OF CHARGE**

**5. Question: How do you choose the Casinos to play at?**

1. D Lucky has spent over a decade playing slots almost every single day up and down the Las Vegas Strip. After putting in 10,000 hours of slot play you begin to see things and notice the slot machines that generally pay out on a daily basis. This doesn't mean that the slot machines will hit a jackpot or even pay out. Slot machines are random and you need luck to be able to hit a jackpot. However, our belief is playing on slot machines that get a lot of play all the time will generally give you a better chance at hitting a jackpot. Whether this is true or not, we generally hit between 15 – 30 jackpots a day.

**6. Question: Do you recycle people through 1 slot machine until it hits?**

1. That's not the way we play slots. We play and budget per machine and we move around from Casino to Casino. There can be times when a slot machine will just suck money and not pay out. We have to carefully watch for these times and move around to machines that we feel are loose. **(Disclaimer: Again slots are random there are no right way or wrong way to play slots. This is just the way D Lucky plays slots. You can play slots on your own or you can play with D Lucky for free during the Jackpot Experience.)**
2. During 2020 which is a Covid year and only coming to Vegas about 30 days out of the year, we hit over 500 Jackpots alone. That is over 10 jackpots a day just for 1 person. Most people stayed at home during 2020 which means less play in slot machines but we still manage to hit over 500 jackpots. If alone, we hit 500 jackpots in 1 year, imagine how many jackpots are paid out yearly. If hypothetically there are 1K high limit players that average this kind of play, that could turn out to be 500,000 jackpots yearly in Las Vegas. And this is during a COVID year where everyone stayed home.

**We hope this addresses some of your questions and 3 things to remember!**

1. Slots is for fun and this is a for fun experience to meet D Lucky.
2. The odds are against you in slots.
3. If you need money, don't play slots, your chances of winning are against you.
